C) Agrandissez visiblement l'espace avec un tapis au pied du lit. La bonne idée à compléter avec deux descentes de lit latérales coordonnées.

Tapis ronds - pour tous les types de chambre/lit

Per questa nuova Collezione Pret à Porter, creatività e ingegno si incontrano in una ricca varietà di proposte ispirate liberamente al mondo dell'Arte, ai dettami dell'Architettura e alla Moda: i pilastri creativi di SITAP Carpet Couture Italia.

Lo stile di ogni mia creazione, dal Design 100% Made in Italy, sorprende per l'innata eleganza e uno spirito cosmopolita, caratteri fondamentali per valorizzare con il tocco giusto gli ambienti che viviamo ogni giorno.

Ogni tappeto della nuova collezione Pret à Porter è come una composizione. Geometrica, astratta, multicolore, floreale...

Ogni modello è stato scelto per il suo alto valore sartoriale e un design unico, nato per essere sempre attuale e di tendenza.

Le texture, così come la scelta dei filati e lo studio del colore sono componenti unici, frutto di una lunga ricerca portata avanti da me e dal Centro Stile SITAP, che dirigo dal 2014.

Tappeti pronti per arredare e pensati per emozionare. Modelli ideati per valorizzare ogni spazio e rispondere alle necessità abitative di oggi, sempre più frenetiche, ma al tempo stesso esigenti in termini di ricercatezza.

La nuova Collezione Pret à Porter SITAP racconta la storia della nostra famiglia, oggi alla terza generazione e al tempo stesso la storia di ogni casa, il suo stile, le sue tradizioni.

Benvenuti nel nostro nuovo mondo...

Made with Love,
Made in Sitap.

Creativity and flair meet each other to conceive the new Pret à Porter Collection. A wide rug proposal, freely inspired by the world of Art, Architecture dictates and Fashion. As always SITAP Carpet Couture Italia fundamentals.

The style of every single creation, featured by a 100% Made in Italy Design, surprises with an innate elegance and a cosmopolitan aim, essential topics to enhance every day home interiors with a good twist.

Each rug part of SITAP Pret à Porter collection seems like a composition. Geometric, abstract, multicolored, floral... Each model is chosen for its high value and a refined design, always current and trendy.

So relevant topics like textures, as well as yarn and color study represents the result of a long research, carried out by me together with SITAP Centro Stile, since 2014.

Rugs ready to furnish and designed to move feelings. Models which enhance every space and satisfy today's increasingly frenetic living needs, at the same time demanding, in terms of refinement.

The new SITAP Pret à Porter Collection tells the story of our family, now in its third generation, and the story of each home, its style, its traditions.

Welcome to our new world...

Chaque tapis de la nouvelle collection Prêt à Porter est comme une composition. Géométrique, abstrait, multicolore, floral...

Chaque modèle a été choisi pour son design unique, créé pour être toujours actuel et tendance.

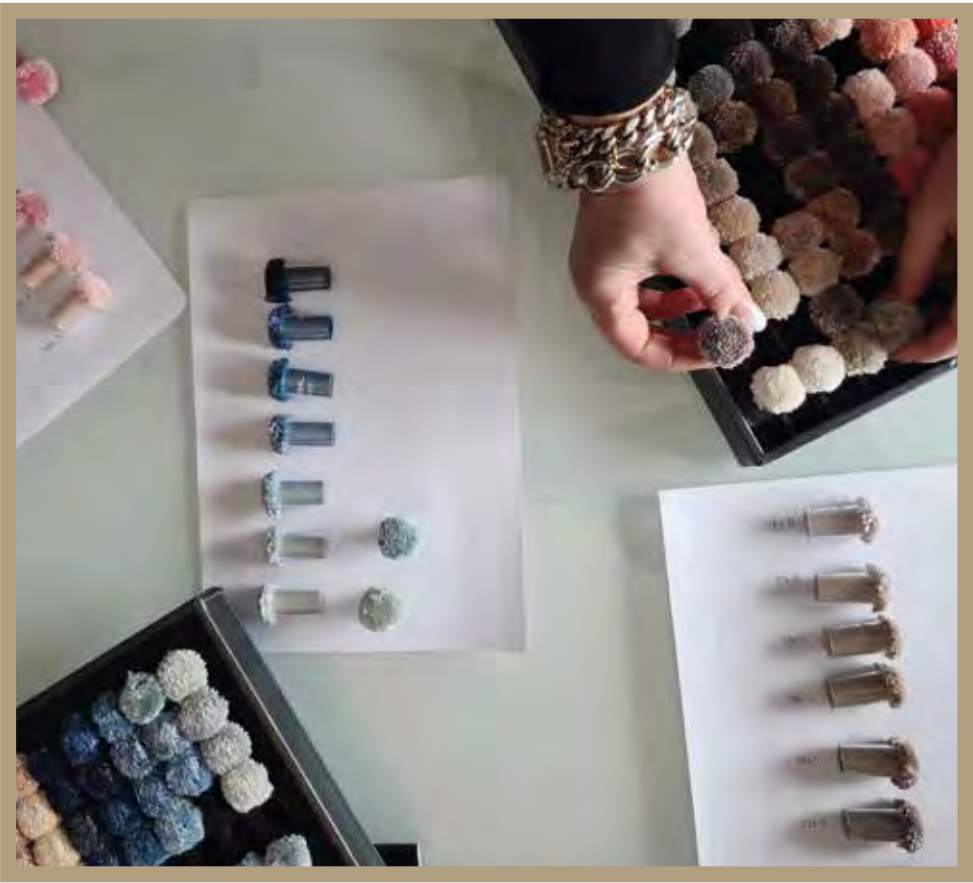

Les textures, ainsi que le choix des matériaux et l'étude de la couleur sont des composants uniques, résultant d'une longue recherche menée par moi-même et le Centro de Stile SITAP, que je dirige depuis 2014.

Des tapis prêts à meubler et conçus pour émuouvoir. Des modèles conçus pour valoriser chaque espace et répondre aux besoins d'habitation d'aujourd'hui, de plus en plus frénétiques, mais en même temps exigeants en termes de qualité.

Le fotografie dei tappeti sono esemplificative dei colori. Pur essendo il più possibile simili ai tappeti originali possono presentare differenze cromatiche, a causa della stampa in quadricromia, per l'effetto della rifrazione della luce su filati cangianti e per l'artigianalità della tintura fatta a mano, che potrebbe variare da un bagno di colore all'altro. Le fotografie dei tappeti in pianta sono realizzate da un'altezza di 4 metri circa. Questo per evidenziare al meglio i colori e il motivo. Tuttavia, l'aspetto del tappeto può variare a seconda si tratti di un tappeto cangiante o opaco e dell'intensità della luce presente una volta steso a terra. Durante le prime settimane, il tappeto tenderà a perdere alcune fibre. Un fenomeno dovuto al normale spoglio della felpa, residuo della rasatura finale (per i tappeti a pelo lungo e voluminoso, l'evento può prolungarsi nel tempo ed essere più accentuato). Questi residui possono essere facilmente eliminati utilizzando un semplice aspirapolvere che non abbia un'azione troppo abrasiva sul tappeto. Non utilizzare mai il battitappeto. Le macchie devono essere trattate immediatamente. Il 90% di esse può essere rimosso con acqua minerale gassata, tamponando con un panno di cotone o carta da cucina, senza tuttavia sfregare. Qualora si trattasse di macchia ostinata, è possibile intervenire anche con sapone neutro non aggressivo. Per una pulizia profonda, è sempre bene rivolgersi a lavanderie professionali. Consigliamo di tagliare delicatamente con delle piccole forbici i fili che sporgono dalla texture, senza calcare. Arrotolate sempre i vostri tappeti quando volete riporli, senza piegarli mai. Si specifica che non possono essere considerati difettosi i Prodotti che presentino misure differenti rispetto a quelle indicate nella Conferma Ordine, ma comunque rientranti nei limiti di tolleranza del +/- 5%. Catalogue photos, though being as similar as possible to original carpets, can sometimes present slight differences in shades, due to both four-colour printing, light effect on iridescent yarns, yarns different batches given by handmade dyeing. The photographs of the carpets in plan are taken from a height of approximately 4 metres. This is to best highlight the colors and pattern. However, the appearance of the carpet can vary depending on whether it is an iridescent or opaque carpet and on the intensity of the light present once laid on the ground. For few weeks after the installation, some fibers may become detached from the carpet. This is due to a normal plush shedding (in case of high pile voluminous carpets the phenomenon is more accentuated and it lasts longer). These fiber excess can be removed by vacuuming. It is important not to use brushes or carpet sweepers. Stain must be treated immediately. The 90% can be removed blotting with a cotton rug or paper towel and sparkling water without rubbing it. If the stain is tough, you can use also neutral soap; for a deep cleaning you should address to a professional laundry. If yarn loop pulls out don't tear it, just cut it gently with tiny scissors. In case of storage, just roll it without folding. It is specified that Products that present different sizes than those indicated in the Order Confirmation, in any case within the tolerance limits of +/- 5%, cannot be considered defective. Les photos des tapis sont fournies à titre d'exemples de couleurs. Nous avons essayé de les rendre aussi semblables que possible aux tapis originaux mais ils peuvent présenter des différences de couleur, en raison de l'impression en quadrichromie, de l'effet de la réfraction de la lumière sur des fils changeants et de l'artisanat de la teinture à la main, qui peut varier d'un bain de couleur à l'autre. Les photos des tapis sont réalisées d'une hauteur d'environ 4 mètres pour mettre au mieux les couleurs et le motif. Toutefois, l'aspect du tapis peut varier en fonction de s'il s'agit d'un tapis changeant ou opaque et de l'intensité de la lumière présente une fois mis au sol. Pendant les premières semaines, le tapis aura tendance à perdre quelques fibres. Un phénomène dû à la chute normale des poils, résidu du rasage final (pour les tapis à poils longs et volumineux, l'événement peut durer plus longtemps et être plus fort). Ces résidus peuvent être facilement éliminés en utilisant un simple aspirateur n'ayant pas une action trop forte et abrasive sur le tapis. Ne jamais utiliser l'aspirateur-batteur. Les taches doivent être traitées immédiatement. 90 % des taches peuvent être retirées avec de l'eau gazeuse minérale, en tamponnant avec un chiffon en coton ou du papier cuisine, sans frotter. En cas de tache tenace, il est également possible d'intervenir avec un savon neutre non agressif. Pour un nettoyage en profondeur, nous recommandons un lavage professionnel. Nous conseillons de couper délicatement, avec un petits ciseaux, les fils qui ressortent de la texture, sans trop de pression. Enroulez toujours vos tapis lorsque vous voulez les ranger, sans jamais les plier. Il est précisé que les Produits présentant des dimensions différentes de celles indiquées dans la Confirmation de commande, mais qui rentrant dans tous les cas dans les limites de tolérance de +/- 5 %, ne peuvent pas être considérés comme étant défectueux.
